

STUDENTS SATISFACTORY SURVEY

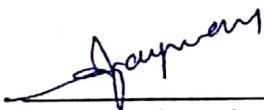

Student's satisfactory survey is done annually to check the efficacy of teaching and learning process of the institution. With data on student satisfaction, educators and administrators can identify areas where improvement is needed.

Aims and objectives: To improve the institutional effectiveness on teaching and learning process and overall development of students.

Methodology: A closed ended questionnaire consisting of 14 questions has been developed. The questionnaire was distributed to 1st, 2nd, 3rd, 4th year BDS students and interns of Army College of dental sciences. Statistical analysis has been done through SPSS package version 24.

Results: Results are statistically significant with positive feedback on teaching and learning process. Efforts will be made to strengthen the system and improve the performance further in the upcoming year.
