Safety And Security

Army college of dental sciences has strict security of high standards at the college gate to create a safe campus. Well-trained guards are employed by the college on a 24-hour roster. The security guards at the gate, stationed two at a time, check the IDs of everyone entering the campus. The high walls of the campus also prevent the trespassers from entering the college premises. An incinerator was also installed in every washroom of the girl's hostel. The safety and security of students is a priority at ACDS during events and fests when the outsiders are also invited to the college campus. ACDS recognizes the importance of having institutional safeguards in place to make its students feel safe. Therefore, we have a committee to take care of these matters.

CCTV cameras are installed in both girls' and boys' hotels on every floor. The hostel has a trapped net for monkeys. Fire extinguishers are installed at every floor for emergencies. For medical emergencies, an ambulance is available 24/7 to take the students immediately to a military hospital. College buses are available to take the students to ESIC hospital and Military hospital for medical postings.

In covid times, the securities check the temperature and oxygen level of every individual who enters the campus. Foot-controlled sanitizers are placed at various places in the college campus. No one is allowed in the premises without a proper mask.

Counselling

Student life today throws up numerous challenges owing to a fast-paced tempo, changing family dynamics, being away from home, increased competitiveness and social media. ACDS recognizes that counseling is important for students to navigate these demands and achieve their academic potential. In keeping with its mission to provide for the all-around holistic development of students, ACDS offers formal in-house counseling. This Counseling is free and open to all students and staff and complete confidentiality is maintained. It has contributed greatly in promoting the psychological well-being of students, helping them achieve their academic, personal, and relational goals. Some of the recurring student concerns flagged by the College Counsellor for ACDS are: Time, Stress, and Relationship Management, Family Problems, Body Image, Self-Confidence, and Career Counselling

A trained Clinical Psychologist, Dr. Anitha Reddy is made available for students. Apart from the regular counseling sessions, attempts are made to offer talks in group settings to address common issues that are encountered by young adults. ACDS also has a strong Mentor-Ward Programme that complements the teaching-learning exercise. Every student is paired with a faculty mentor, thus giving them the opportunity to reach out for individual sessions for counsel. The mentor-mentee ratio is such a type that every individual can be given personal attention. The mentors sensitize themselves to the needs of students and recommend formal counseling if required. This plays a significant role in confidence-building and skill development.

Apart from formal counseling, various departments and societies of the college organize counseling seminars for students. Legal experts are invited to address the intricacies of sexual harassment by citing real-life cases. Talks on Gender Sensitization are organized from time to time. Career counseling workshops are organized by various departments to apprise the students about the career opportunities in their specific field.

The various initiatives launched by the college underline that it takes responsibility for disseminating information on counseling as well as dispelling the myths and stigma surrounding it very seriously. This has helped students understand the significance of counseling and work on their own fears and anxieties and achieve their best in both curricular and extra-curricular activities.

Common Rooms

Army College of Dental Sciences prides itself in providing comfortable spaces for students. There are separate common rooms for girls and boys that are easily accessible and centrally located in both the hostels. The common rooms are quite large, spacious and are fully ventilated, and can accommodate a large number of students. The common room is called the rec room, which is present in the hostel. This common room is often used by students of various cultural societies to practice for their events. There is a gymnasium for the students in the college campus to do physical exercises and maintain their fitness.

Daycare Centre For Young Children

Army College of Dental Sciences has a children's park and separate child daycare room for the patients who come with their children for their treatment. The daycare room contains various toys for both boys and girls so that they can enjoy it while their parents are getting their treatment done. The college provides effective and efficient health care for patients with predictable requirements in a patient-friendly and relaxing environment.
