Student Feedback - Action Report AY (2022-2023)

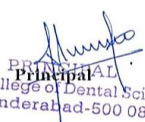

The feedback is collected from all stakeholders (students, faculty, employers, alumni) by all departments independently. The respective Academic committee reviewed the feedback and has prepared a report and submitted for perusal to incorporate the possible suggestions to revise the curriculum.

- The curriculum must accommodate courses on How to use CBCT
- Post graduates' students get exposed to even oral oncology cases and their treatment
- Orientation of students to PSYCHOLOGICAL BEHAVIOUR MANGAMENT of child patients in order to handle children more efficiently and easily at clinics
- Undergraduate also to be trained for doing microscopic endodontic procedures using endodontic microscope
- Theory and practical classes of General Anatomy for Post graduate students as a part of Basic sciences

Action taken:

- With installation of new CBCT machine this year, final year students and interns are trained on how to use the CBCT machine.
- Oral surgery post graduate students are given peripheral postings in oncology hospitals for span of 2 to 3 months.
- Root canal treatments with use of endodontic microscope training is given for interns and post graduates
- Basic sciences theory classes are conducted for first year post graduate students every year.

Professional Feedback - Action Report AY (2022-2023)

The feedback is collected from all stakeholders (students, faculty, employers, alumni) by all departments independently. The respective Academic committee reviewed the feedback and has prepared a report and submitted for perusal to incorporate the possible suggestions to revise the curriculum.

- Under graduates' students should be allowed to assist the major surgeries along with PG students for better exposure clinical treatment plans
- Training UG students for child s behavior management through conscious sedation techniques
- Students should be trained in using the new advanced equipment and techniques to prepare oral histological specimens
- Students should be aware of the methodology of public water fluoridation at UG level
- Students should be trained in performing clinical diagnostic tests for the patients referred to these departments

Action taken:

- Allotment of a schedule on rotation basis for final year students and interns posted in that specialty is made to assist post graduates and staff.
- Lectures on child behavior management is conducted by Department of Pedodontics.
- Final year students and Interns are taken to water purification and fluoridation plant to make them aware of the process.
- During internship, students are sent to Department of biochemistry and pathology to acquaint themselves and perform the clinical diagnostic tests
