NAAC Accredited 'A' & Certified ISO 9001: 2015 & ISO 14001: 2015

We have established Research Cell, equipped with state-of-the-art technologies aimed at pushing the boundaries of scientific exploration. Our Cell serves as a catalyst for innovation, fostering collaboration and interdisciplinary exploration.

### **Tools of Exploration:**

- 1. Stereomicroscope:** We got advanced stereomicroscope, offering unparalleled clarity and precision. This indispensable tool empowers researchers to unlock new realms of understanding.
- 2. 3D Printer:** This printer helps one to transform digital designs into tangible prototypes, facilitating rapid iteration and innovation across disciplines. With the help of this 3d printer, 3d models of the patients maxillofacial regions can be printed.
- 3. Intraoral Scanner:** Our advanced intraoral scanner, helps in precise digital impressions with unparalleled accuracy, facilitating comprehensive treatment planning and personalized patient care. From orthodontics to prosthodontics, this technology helps researchers to redefine standards of oral health.
- 4. Soft Tissue Laser:** This soft tissue laser helps for the surgical precision and patient comfort, as this cutting-edge tool enables minimally invasive procedures with exceptional outcomes.
