Report of the program

The program focused on data analytics and how it is useful in dental practice. The program commenced at 2pm was attended by the Faculty, Post graduate students and interns of Army College of Dental Sciences.

The session was a presentation by Dr Anshu Khanna on the Introduction to Data Analytics in dental practice. She discussed about the Data analytics and its involvement in the process of examining large datasets to uncover trends, patterns, and insights that can inform decision-making and improve outcomes. The session has helped in recognizing the potential applications of data analytics in dentistry, such as enhancing treatment planning, improving patient care pathways, and optimizing practice management.

Learning outcomes: Assess the benefits of implementing data analytics in dental practice, including improved decision-making, enhanced efficiency, and better patient outcomes.

KOL Lecture Series-Roadmap to a Career in the USA

A lecture on "Roadmap to a Career in USA" was organised by Scientific Academic Forum and Dental Education Unit for Post graduate students, interns and faculty on 29th March 2023 at LH4. The program was scheduled from 9.00am-10.30am and the lecture was delivered by Cdr TJ Barring, President JNB Group of Companies, Former Commander (Indian Navy).

It was an interactive session where the speaker discussed various options for BDS students to pursue a Career in USA. He primarily motivated the students to join the armed forces and in case they wished to move to the US for further studies, to join the MHA course and/or get work experience as dental assistants and MSN nurses as these stints help financially and add to ones clinical experience. He then motivated the students to focus on quality research work on their journey toward pursuing the dream of a DDS degree. He then went on to introduce the gathering to the scholarship funded by Indian Veterans in USA which covers in part for educational courses for dentists and provides guidance and support to students while in the US. It was a well-received lecture by all the participants and was very interactive where audience raised their doubts which got clarified satisfactorily.
