Outcomes of the implementation of Student Mentoring: Personal Enrichment Program at Army College of Dental Sciences

A professor was designated as a batch mentor for every year of study and used to handle all issues arising among those batch students till 2020. However, this was found to be ineffective in the long run due to a poor mentor-student ratio (Mentor: student=1:15) and hence, a greater number of faculty was incorporated to monitor the students. (Mentor: student=1:6)

Outcomes of the implementation of student mentoring are:

- Problems of the students, regard to personal, academic, social, and psychological issues were addressed periodically.
- Mentoring developed a strong positive relationship between mentor and mentee.
- It strengthens the emotional intelligence which helped mentees to handle their problems independently
- Communication skills of the students are improved
- Improvement in self-esteem, personal competence, and group social dynamics
- Improvement in the academic performance of the students

The Pass percentage in the University examination for the MDS program is improved from 90 to 100%.

FINAL MDS-Result Analysis

Academic year	Total candidates appeared	Distinction	First Class	Second Class	Failed	Pass percentage (%)
2020-21	14	03	06	05	Nil	100
2019-20	13	Nil	09	04	Nil	100
2018-19	14	Nil	04	09	01	92.8

2017-18	12	Nil	06	06	Nil	100
2016-17	10	02	03	04	01	90

FIRST MDS-Result Analysis

Academic year	Total candidates appeared	Distinction	First Class	Second Class	Failed	Pass percentage (%)
2020-21	14	Nil	01	06	07	50
2019-20	15	Nil	03	10	02	86.6
2018-19	14	01	01	09	03	78.5

- The Pass percentage in the University examination for the
 - First BDS, pass percentage is improved from 84.6% to 92.5%,
 - Second BDS, pass percentage is improved from 87.5% to 97.43%
 - Third BDS, the average pass percentage is 95.9%
 - Final BDS, the average pass percentage is 97.52%

BDS FIRST YEAR-Result Analysis
